Autonomy through Technology

At Bellman & Symfon, we design for more than just function. We create reliable, user-friendly products that help people with hearing challenges stay safe, independent, and connected.

Founded in 1989, Bellman & Symfon has partnered with hearing care providers, assistive technology professionals, and the wider hearing community to develop innovative solutions that are intuitive, dependable, and life-changing.

Bellman Personal Amplifiers

Maxi Pro

Mino

Discover the Joy of Better Hearing

Bellman & Symfon's Maxi Pro and Mino are fully digital, easy-to-use personal amplifiers designed to make conversations, TV audio, and phone calls clearer and more enjoyable in any environment. Both models work with wired headphones, wired earbuds, or hearing aids*, and use advanced digital signal processing to reduce background noise while preserving natural speech clarity.

*Bellman Neckloop (BE9159) is required to use with hearing aids equipped with T-coil functionality.

Maxi Pro Personal Amplifier

BE2021-P01

Bluetooth enabled, for amplified personal conversations and cell phone calls.

A Bluetooth digital listening solution that helps you stay connected. Amplify personal conversations, take phone calls on your smartphone, receive audio from Bluetooth devices, and stream TV audio [†].

Fully Digital
Clear and noise free sound

Omnidirectional Mic
Sound coverage in all directions

Bluetooth
Connects wirelessly for audio streaming

TV Streaming [†]
Streams TV sound in full stereo

[†] Streaming TV audio to Maxi Pro requires the Bellman TV Streamer (BE2022), available for purchase through Prosthetics.

Bellman Alarm Clocks

Vibio

Digital Alarm Clock

Effortless Wake-Up Solutions

For people who are heavy sleepers or have hearing loss, a traditional alarm clock may not be enough. Bellman & Symfon's Digital Alarm Clock and Vibio are user-friendly solutions designed to complement any lifestyle, at home or on the go. Features strong vibrations and dependable backup functions during emergencies.

Digital Alarm Clock

BE1380-P01

Wakes you up with increasing sound, bright flashing lights, and vibrations.

A digital alarm clock with ascending audio up to 100dB with multi-tone frequencies, vibrant visual cues, and strong vibrations. Easy to use, with large dials and intuitive setup. Battery backup included. 12/24-hour time selection.

Bellman Alerting System

Stay Safe, Independent, and Connected

The simplest and most affordable way for people with hearing challenges to stay safe and independent at home. Whether it's a doorbell, phone call, baby crying, smoke alarm, or carbon monoxide leakage, the Bellman Alerting System provides reliable notifications through sound, lights, or vibrations. A family of transmitters to detect events, and receivers to alert, that work wirelessly as one system. All items work out of the box, no pairing* or WiFi required.

* Bellman Bluetooth Bridge and Watch Receiver require Bluetooth pairing.
